Welcome to the AFHK School Portal!

This portal is your hub for all things related to your school's health and wellness programs. Once you affiliate with your school(s), you are able to assess your school with the AFHK modified version of the CDC 2014 School Health Index (SHI). When you use the AFHK SHI you will gain access to customized resources from AFHK and our partners, based on your SHI results. After completing the SHI, a custom action plan will be generated for your school to help your school track progress and take steps towards specific healthy school goals, and to check how ready your school is to apply to the USDA's HealthierUS Schools Challenge. This portal will also allow you access to apply for all AFHK grant opportunities and manage grant reporting requirements. You will want to bookmark this page, so you can return frequently as you work to ensure every kid is healthy and ready to learn in your school.
