

Join the Movement!

Join the ranks of over 60 school districts nationwide committed to championing health and wellness. Let's share insights, resources, and successes as we collectively strive for a holistic approach to education. Together, we can make a difference! Membership is free and open to school district leaders from across the country.

About the NSDWC

Action for Healthy Kids' National School District Wellness Coalition (NSDWC) is dedicated to helping school districts inform, coordinate, enhance, and measure the development and implementation of equitable **Whole School, Whole Community, Whole Child (WSCC)** model-related practices and policies to ensure students, and staff, are healthy, safe, engaged, supported and challenged, and to drive a national education agenda that supports the Whole Child. With origins dating back to 2013's Urban School Wellness Coalition, AFHK broadened our scope in 2020 to welcome districts from both urban and non-urban areas, fostering a diverse exchange of ideas and solutions. The newly formed NSDWC aims to translate WSCC standards into actionable policies and plans for all districts.

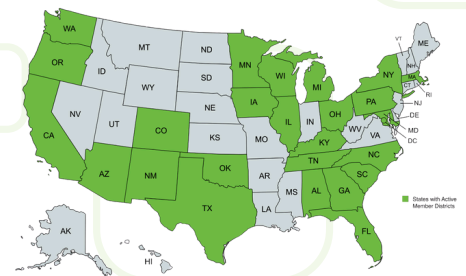

Our Reach

With members from over **75 districts** representing more than half our nation's states, joining the NSDWC gives you access to a community of district leaders driving a national education agenda that supports the Whole Child.
